

Project Case Study

Client: Kent Reliance Building Society
Project: Retail Bank Branch
Location: Hempstead Valley Shopping Centre, Medway
Services: Space Planning/Design

Appointed by Kent Reliance Building Society (One Savings Bank PLC) to act as their design liaison, Logic PM assumed the role of working on behalf of the client lead in undertaking space planning options and obtaining planning permissions for the scheme.

The project was a new build construction at the Hempstead Valley Shopping Centre in Gillingham, Kent and our client is a tenant in the new space. Our role was to:

- Advise on service provisions within the space
- Provide layouts and options to utilise the space effectively
- Obtain advertising consent for signage
- Obtain Planning Permission for the project
- Advise the client on various aspects relating to the occupation of the new space.

Whilst our sister company Logic AD (Architectural Design) undertook all the planning and layout works, Logic PM worked with the client and dealt with the landlord issues and client requirements for the space.

Having gained Planning Permission and Advertising Consent for the project we handed the project back to the in house facilities team to complete the construction works and internal fit out.
